DEBATES IN CONGRESS. Position of Mr. May of Baltimore. PHOM THE GRAND ARMY.

[Special Dispatch to the Chleago Tribune.] Washington, July 18, 1861. The army at Fairfax is all on the march for Manassas Junction, in hopes of overtaking the rebels, now in full flight from here. All our columns will be there by to morrow morning, when there will be a light, unless, indeed, Becautegard's army show the white feather. Our troops are in tip-top condition, and cager

As I write, a report comes that engonading of a sort to indicate a sharp enerticulars are received. No doubt there has een a struggle, but we know nothing of the sault. None of the newspaper men across he river have returned, and they send no dis-

THIRD DISPATCH. STEL LAVER.—The firing was at Bull's Run, two miles beyond Centerville, and by a part of Tyler's column, commenced by a skirmish-party of Michigan boys, and each side being reinforced—a whole brigade on our side, and

oire the whole division.

When my informant left the ground the result was not declared. Our men had fallen back to await reinforcements, and the other side was also growing stronger. He heard cheering along our line after he left, and thinks ours is the victory. The enemy are entrenched and in a strong position. Both the Michigan regiments were engaged, and some of the men wounded.

Gen. Pope has probably superceded Gen.
Huribut in North Masouri.
A special train servived this ovening from
Springfield, bringing Mr. Butler, bearer of
dispatches from Gen. Pope, directing Gen.
Huribut to move to Hudson, and from thence
effect a junction with him on the North Missouth road.
The bridges are reported all destroyed on
this road a hundred miles east of Hudson.

The Hamilton and St. Joseph Rairroad will be whole by Sunday. The telegraph is work-ing and the business of the Pacific line is be-ing sent this way from St. Louis. Licut. Jobe, of Capt. Alexander's Company, in Col. Turchin's E. giment, was shot to-day at Hamilton while on drill by an accidental discharge of a musket. He lived two hours only.

[Norn.—There is no Capi, Alexander in Colonel Turchin's Regiment. There must be some mistake about the reported shooting at Hannibal.]

PROM ST. LOUIS. [Special dispatch to the Chicago Tribune.] Sr. Louis, July 18, 1861. Alexander Lewis, a well known horse-dealer and secessionist, appeared on the street to day, with rife in hand, defying anybody who didn't believe in Jeff. Davis. He was arrested by the Home Guards and carried to the Arsenal.

The Grand Jury returned another batch of indictments to-day, supposed to be principally against traitors. The names are sup-

ly spainst traitors. The names are sup-pressed.

Twenty five sets mule harness for Rolla, and seventy mules for Boonville, left to-night. Opeof Capt. Coursel's Company captured at Neosho, arrived home at Carondelet to day. He reports that If men were led out to be shot when Loughborough, a rebel from Carondelet, and others interfered to save their lives. Subsequently the Missourians chaimed it was the Arkansans who wished to kill the prisoners, but the fact is, a large proportion of the Missourians favored it first. Letters received from Springfield, dated Tuesday, report all quiet.

Heuse, that his (May's) remarks were not in order, and, therefore, he ought not to be permitted to proceed.

The SPEAKER repeated that it was for the House to control the line of debate.

Mr. STEVENS appealed from the decision of the Speaker.

Mr. VALLANDIGHAM moved to lay the speak on the table. Motion disag reed to.

After further proceedings, the decision of the CHAIR was overruled, and on motion of Mr. DAVIS of Pa., Mr. May was only allowed to continue his remarks if in order. Mr. DAVIS of Ps., Mr. Msy was only allowed to continue his remarks if in order.

Mr. MAY said: When the freedom of debate shall be epened to an American Representative on the floor, then I shall speak as it becomes me to do.

Mr. MAY then requested the privilege of presenting a memorial, couched in respectful saggage, from the Police Committee of Ballispore.

Mr. COLFAX said, in response to the gentleman's declaration of his determination to stand by the Union, he supposed that Mr. May had been grossly misrepresented by a Richmond correspondent of a Charleston paper, which asserts that he (May) said to the so-called "Confiderate Government," that 30,000 m in in Masyland were gady to arm against the Federal forces in that City.

Mr. MAY—This is the first intimation that has rached me of such a letter. I have not sen it. He had no objection to the resulting of the entire article.

The Clerk then read the letter. If was dated Richmond, July 4th. Among other things it said the objects of May's visit had not transpired, but that it looked to certain events in Maryland, and that the intelligence to brought was enough to make Americans weep, that the city of Baltimore was under the heel of tyranny, that women had been insulted, and outrages committed such as to make manking bluth. In fact, that a reign of terrorexisted. He (May) was strong in the hope that the day of retailation was not far distant; that 30,000 Marylanders would rise up in asma against their oppressors; and though an attempt might be made to deprive them of their arms, yet 8,000 makets were con cealed and guarded night and day.

Mr. MAY and he did not know who wrote the letter, but he declared that it was absolutely untrue that he communicated to the author any such things. It was equally untrue that he communicated to the author any such things. It was equally untrue in the pround of resisting tyranny and oppression, and on the ground rights, on the ground of president when the providence, the thing is absolutely proposerous. News from Ven. Coré brigade, received at the Capital this morning, states that on the 15th it was at Red House, thirty-one miles from the mouth of the Big Kanawha. They expected then to reach Charleston on the 18th. There had been some picket skirmlabing on the march, but "nobody hurt."

There had been some ploket skirmishing on the march, but "nobody hurt."

[From the Cinchnati Commercial, 18th.]

On Sunday night last a portion of the First Kentucky Regiment were ordered by General Cox to cross the Kanawha near the Red House, about forty miles up the river. They had proceeded about one-fourth of a mile, when they were ordered to halt and put caps on their guns, ready for action. While doing so they were suddenly charged upon by a company of cavairy, who fired on them, killing two instantly and mortally wounding a third. The cavairy wheeled off, the boys firing upon them, but with what effect is not known, as it was "pitch dark." Those killed were private Marshall and Hogan; mortally wounded private Alex. Mordecai, all of Company G. The ball strack Mordecai in the shoulder, passing out near the spine. Three members of the company escorted the wounded man on his way home, but he died near New Richmond. Mr. Bates' Light Guards, Weel Walnut Hills, turned out and paid the military homors to the young man the has give his life as a sacrifice to the cause of his country.

Not to put too fine a point upon it, the Common Private Soldier wants Gen. Frontiss appointed a Major General, while the State Journal wants Gen. Pope so sippointed, though it scknowledges a fitness for the position in Hon. J. K. Dubois, the present Auditor of Public Accounts, better known as "Unclé Jesse." The State Journal strongly suspects that the Common Private Foldier gets his inspiration from headquarters. We cannot think so. His letter is crowded too full of blunders to have some from such a source, and Gen. Prentiss is too homorable a soldier to consider at the same time Col. Preston presented them with a sulk hanner, on behalf of thirteen young ladder who had made it. Each man wat all the lates and good faith.

The State Journal has accused us of a good deal of fault-finding of late. We take pleasure in assuring it that we are just exactly suited with the present arrangement, which has made Gen. Fremont our Major Genzal and Genzal a

ment, which has made Gen. Fremont our Major General, and Gen. Pope and Gen. Prentiss our Brigadiers. If Gen. Fremont were a native or a citizen of Illinois, that circumstance would please us still better, but the fact that he is neither does not detract from the satisfaction which is felt throughout the State and the West, that he has been appointed to lead our soldiers to victory. On the score of military distinction, it is sufficient to point to his career in the West and on the Pacific, and to the rapidity with which he rose and to the rapidity with which he rose and to the rapidity with which he rose perity would be restored to the entire counand to the rapidity with which he rose from a Second Lieutenant of Topographical Engineers in 1898, to a Lieut-Colonel of Mounted Rifles in 1846. Energy, skill, rapidity of decision and vigor of execution the qualities which pre-eminently mark the great commander, are the distinguishing traits of Gen. Fremont's character. And these facts are so universely the second to the entire country. He spoke for about wenty inlines, and repelled the charges made against him by his enemies, of being inhaical to the interests of Maryland, whose prosperity and happiness he declared to the entire country. An enhemetis was computed, showing
the path of the comet among the fixed
stars, as seen from the earth in its retreat
from the sun, and of course no astronomer
would look elsewhere for the comet than
upon its predicted route. This predicted
route, for the months of June, July and
August, was on the south side of the plane
of the ecliptic, and the comet did not rise
sufficiently above the plane of the horizon
in this latitude to be seen.
Such was the condition of our knowledge concerning the Thustcher Comet, when
a brilliant object, with a magnificent train
of nebulous light, appeared suddenly in
the northern heavens. When its place was
compared with the computed place of
Thatcher's Comet, the discrepancy was so
large, nearly 90 deg. of declination, that it
was at once taken for granted-that the new
object was quite independent of any connexion with the former Comet.

A comparison of these two sets of elements will show that the Thatcher Comet is not the object now visible in the heavens. It is true that the value of T (the time of perfihelion passaged differ only some eight days. That the angles of inclination (i) differ less than eight deg.; that the logarithms of the perihelion distance are nearly elike, but the values of the longitude of the descending nodes are so entirely different, the planes in which the two Comets move, make with each other an angle of nearly sixty deg., and while they chanced to come very near each other, in their nearvest approach to the sun, their paths among the fixed stars lie in regions of the heavens very remote from each other, except at the point where the orbits nearly intersect each other, in the immediate vicinity of the perihelion points. THE CHICAGO DISTRICT CAMP

[From Our Special Reporter.]
The Camp meeting of the Methodist denomination occupies the same location that
was proven by last year's success to have
been adapted admirably to all the purposes been adapted admirably to all the purpose of such a gathering. It is now in session a Desplaines Station, 'txicen and a half mile from this City, on the Chicago and North western Railread, in a beautiful grove, half a mile from the track, and on the east bank of the river from which the town takes its name. It was opened by a manal

the markets for breadstuffs were reported steady and firm by come chroniars, and higher by others. Hewiti & Co. quote an advance of 6d on Flourade on Wheat—and 6d on Corn.

The effect of this new was felt almost instantly in this market, and an advance was gained in the prices of I cading articles. Notwithelanding the liberal receipts of Wheat, the demand was so active that prices advanced over yesterday's extreme quotations fully 8: per bushel, At the opening buyers offered fle for No. 1 Spring, at which but little was sold—when the New York dispatches came in, and under the excitement which followed, prices ran up to 74s—but the sales at this figure were light, and towards the close it fell back to 73g-73g. Abut 100,000 bushels of all grades changed hands, at 74s for Northwestern Club in store; 73g-73e for No. 1 Spring; 67g-80e for No 3 Spring; and 54g-50e for Rejected. Besides a good inquiry by Canadian subppers, there was a more active demand by speculators.

The Corn market also shared in the buoyancy caused by the steamer's now, and we note an advance of ½c per bushel. About 150,000 bushels changed hands, at 17½c for River Tellow f. o. b; 38½c for River White f. e. b.; 38½ \$485c for Canal and River Mixed shoul; 189g-545c; for Mixed in store; and 18½c for Rejected in store. The advance in freights tended somewhat to sheek the upward to nessey in the market; but it nevertheless closed firm.

There was a good demand for Flour, and the market adanced 5g-10e per hel, under the Influence of the news them New York and Liverpool—with asies about 18,000 bels, at \$39g-612g, for Inferier to very superior spring extras; and \$2.00g-2 to for good beands of supering.
